

## Subscription Packages

ProjectConnect offers the following optional Business Search Subscription Packages to users:

### Business Search Package 1

Provides your organisation with access to three (3) search engines.

- 1. Project Dashboard**  
An automatic dashboard when you log in that shows you what projects have added information since your last visit, results of your saved searches and other useful information.
- 2. Your organisation will obtain access to Search Supply Opportunities**  
This search engine allows to quickly interrogate and register interest on any open project opportunity that is currently listed on ProjectConnect. They can search for specific opportunities such as pumps, motors, switchboards, etc. They can also search for recently listed or awarded opportunities.
- 3. Your organisation will obtain access to Search Contract Winners.**  
This searchable database contains details on thousands of organisations that have been awarded contracts by the projects utilising ProjectConnect.
- 4. Emailed Search Results**  
The search engine can save your predefined searches, execute and email the results to your mailbox automatically at regular intervals, alerting you of new opportunities or awards.
- 5. Shared Notes about Opportunities**  
You can keep notes about opportunities to help you organise your work more effectively. You can also choose to share your notes with other users in your organisation, making team collaboration easy.
- 6. Search Industry Directories**  
ProjectConnect hosts a number of specialist industry directories that can be easily opened and search via the account management system.
- 7. Company Profile Plus +**  
You will have the ability to upload your company brochure, logo and photos of products and projects to you profile.

The cost for this package is AUD\$165 + GST per year.

## Business Search Package 2

Provides your organisation with access to three (3) search engines.

- 1. Your organisation will obtain access to Search Suppliers for Their Past Contracts (Reference Work)**  
Thousands of Australian and New Zealand organisations have detailed profiles stored on ProjectConnect. Information provided includes details on past contracts they have supplied.
- 2. Your organisation will obtain access to Search Company Profiles & Capabilities**  
This search engine allows the interrogation of ProjectConnect's complete database of over 10,000 suppliers that provide goods and services to development projects. You will also have the ability to export the results to an Excel spreadsheet.
- 3. Your organisation will obtain access to My Research.**  
This will allow personnel to find and store company profiles in their own unique directory listings, called Tagsets. There are numerous tools available in the Tagset module that allow users to view, manipulate, copy, delete, rename and merge their Tagsets. They can also share their Tagsets with other personnel in your organisation.
- 4. Shared Notes about Suppliers**  
You can keep notes about suppliers to help you organise your work more effectively. You can also choose to share your notes with other users in your organisation, making team collaboration easy.
- 5. Company Profile Plus +**  
You will have the ability to upload your company brochure, logo and photos of products and projects to your profile.
